3809 REPORT OF INSPECTION

Date: May 14, 2001 Time: about 12:15pm Location: T.5S. R.24E. Sec 6 S2 of Lot 8

Operators present during inspection: No

I was accompanied by Tony Gallegos with the Utah Division of Oil, Gas and Mining.

Serial no. of notice: UTU 66357 (Bluebell Oil Co project area) Is the operation active? No

Description of operations (including access, reclamation, etc.): The project area remains in essentially the same condition as during the October 23, 2000 inspection (see digital images attached).

Is the operation in compliance with the notice on file and/or the stipulations of the approved plan? (if No describe deficiencies): No. Reclamation of the project area has not transpired within a reasonable time after the cessation of operations. The operator was issued a notice of noncompliance [dated November 14, 2000] in which removal of equipment and man-made improvements, and reclamation was ordered. The operator petitioned the AO for an extension of time [until June 30, 2001] to have materials removed and initial reclamation steps taken - a request granted by the AO.

Copy - Tony Gallegos (UDOGM) - state file no. S/047/50 (via email)

Attachment to May 14, 2001 inspection of Bluebell project area (UTU66357).

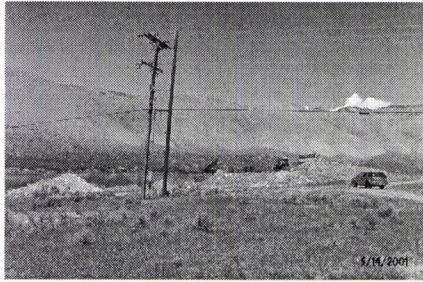

image 1 - view to north of western part of project area (oversized cobble reject pile at left, Moon Lake power line, placer mill at center to center-right; vehicle is parked near middle of south line of project area)

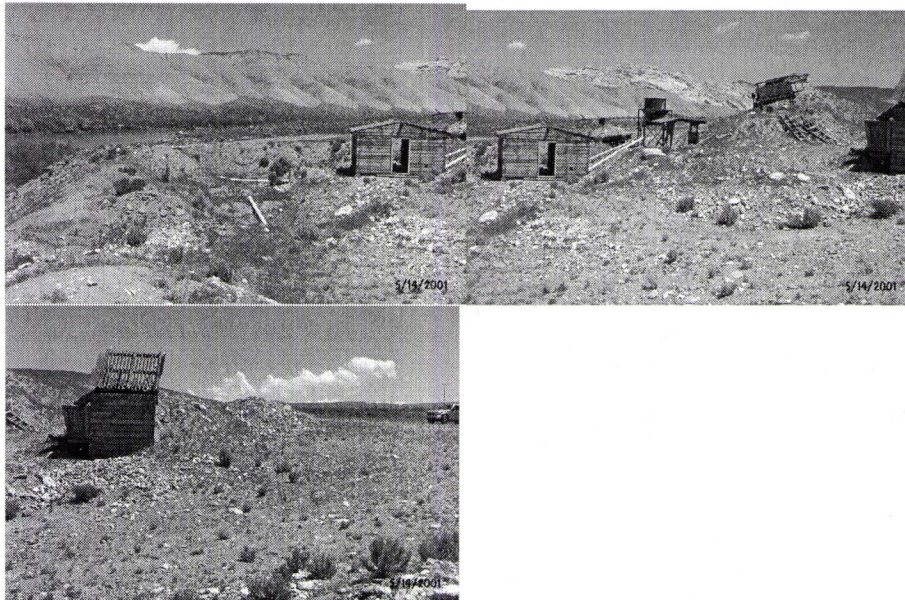

image 2 - view (from far side of cobble pile at left in image 1) to north (left) to northeast (right) of northwestern part of

project area, compare with image 1 of 10/23/2000 I&E (dried settling pond at lower-left, storage building and closer view of placer mill equipment; Green River is at left, Split Mtn on skyline)

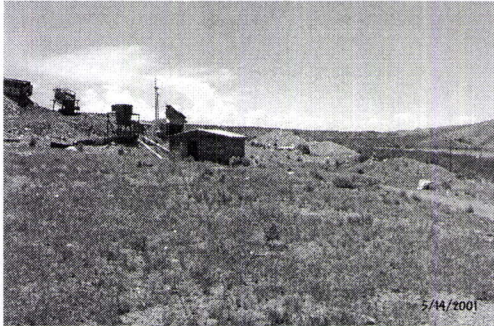

image 3 - view to south of northwestern part of project area (opposing view to image 2 above; trail at center-right goes to Green River - trail is basically northern boundary of project area)
